OBJECTIVE

Highly motivated Computer Engineering major seeking to begin my career in software development to utilize my coding skillset to create websites and applications and gain experience in the industry.

EDUCATION

San Francisco State University
BS in Computer Engineering

San Francisco, CA
Graduation Date: May 2023

WORK EXPERIENCE

JINS Eyewear US

Team Lead

San Francisco, CA

Apr 2021 - Aug 2022

- Delegated projects and tasks to team members to optimize team efficiency.
- Led training for up to 5 new service specialists at a time, covering onboarding operations and other store procedures.

Service Specialist

Oct 2019 - Apr 2021

- Successfully completed 50 orders per day on average, ensuring that the company hit its targets and goals.
- Kept the store organized and tidy by reorganizing displays and maintaining inventory levels.

Kumon

Mathematics Tutor

San Francisco, CA

Aug 2018 - Oct 2019

- Tutored students in mathematics, ranging from basic to calculus level.
- Answered students' inquiries regarding their work and provided feedback for them to improve in their studies.

PROJECTS

AnyaBot

Nov 2022 – Dec 2022

- Utilized Discord API and JavaScript to develop a task managing bot for use on Discord platforms.

Project JIM

Aug 2022 – Present

- Collaborated with team of Computer Engineers to develop an iOS application using Swift that analyzes user movement to assist with the user's workout routines.
- Designed the application's UI, making it simple and intuitive to use for all age groups.

JobHunter

Aug 2022 – Dec 2022

- Collaborated with a team of 5 developers using JavaScript, MySQL, HTML, and CSS to develop a web-based application that allows users to post job listings and apply for jobs.
- Managed the application's backend database to ensure data safety and validity.

ukiyo.gg

Jan 2022 – Dec 2022

- Utilized HTML, JS, and CSS to develop an online portfolio for my own personal works.
- Applied design knowledge to make website's interface and layout easy to use and navigate.
